

Salisbury State College

Field Hockey 1984

—A REVIEW—

1984—A Year to Remember

If Salisbury State College field hockey enthusiasts would have to pick one year in the College's history to remember, it would undoubtedly be the season of 1984.

The Sea Gulls did in 1984 what no other Salisbury State team had done—finished the season with a 14-6-1 overall record against the toughest schedule in the country, played in the NCAA national playoffs and finished the year ranked fifth in the nation.

The young Sea Gull squad started out the 1984 season with its annual trek to Trenton State's Invitational Tournament. While there, they put up a good fight against the defending Division III champions and recorded a 14-0 win over Widener, taking 93 shots on goal to break known records (Widener's goalkeeper recorded 72 saves in the game).

The win over Widener started a six-game unbeaten streak, four of those games ending in a shutout for the Gulls. The streak ended in the first game of the SSC Cross-Regional Invitational Tournament, bringing four of the nation's top-ranked teams together with two other top contenders for a weekend of field hockey. Drew University beat the Gulls 2-1, but SSC rebounded during the rainy weekend to claim two other victories.

Following two home games, the Gulls traveled to Massachusetts and New York on consecutive weekends and came home with a 3-1 record, losing only to number two Cortland State, 1-0.

Going into the Maryland State Championships as the number one seeded team, Salisbury again found the title elusive, Frostburg State knocking off the Gulls 2-1 to win its fifth consecutive title.

The loss, however, had no effect on SSC's national ranking, as the Gulls entered the NCAA Division III playoffs ranked fifth. A 2-1 win over Elizabethtown in the first round put the Sea Gulls against the defending Division II national champions, Bloomsburg, in the quarterfinals. Bloomsburg dropped to Division III along with several other schools when the NCCA eliminated Division II.

The Sea Gulls took Bloomsburg to overtime before losing 3-1 in the extra period. Bloomsburg went on to win the Division III championship, adding credibility to the fine effort put out by Salisbury State just a week earlier.

Karen Weaver
Head Coach
32-22-1, three years

Karen Weaver (Lock Haven '80) has brought the Salisbury State College field hockey program from a 120th ranking in NCAA Division III to a number five ranking and the NCAA Division III championship playoffs in just three years as head coach. Her 32-22-2 record does not begin to reflect her contributions to the SSC field hockey program.

In July 1982, Weaver inherited a team that finished the season with a record of 5-9. But through the initiation of a highly successful recruiting program as well as intense coaching methods, Weaver's 1983 squad ended its season with the number seven spot in the nation and a 13-7 record.

Her 1984 team took things one step further, going to the NCAA championship playoffs and achieving a number five ranking in the nation, that following a 12-4-1 regular-season record against the most difficult schedule in NCAA Division III.

A member of the Mitchell & Ness Company and College Field Hockey Coaches Association's All-America selection committees, Weaver's national contacts have allowed several SSC players to be recognized as All-Americans in the past two years.

Weaver has been selected as editor of the NAGWS Guide for Field Hockey until 1986, having been a frequent contributor to the national field hockey magazine, *The Eagle*, as well as other national and regional publications. She is a member of the U.S. Olympic Field Hockey Development Committee and has been head clinician for U.S. development clinics since 1981.

Weaver has also developed a nationally competitive indoor field hockey program, a new step for Salisbury State and colleges in this region.

Aside from her duties as field hockey coach, Weaver is the College's women's lacrosse coach and an instructor in the Physical Education Department, having received her M.S. in Physical Education at Purdue University with a concentration in Sport Sociology.

Weaver has coached field hockey as an assistant at Connecticut College and women's lacrosse as head coach at Williams College prior to her work at SCC. In 1982, she led the Sea Gull women's lacrosse team to its first winning season.

The Weaver Years

- 1982 Inherits team that goes 5-9.
- 1983 Team finishes with 13-7 record and number seven ranking in the country
- 1984 Sea Gulls reach NCAA Division III playoffs before losing to eventual champion Bloomsburg 3-1 in OT. Team finishes with 14-6-1 record, ranked fifth in the nation.

Salisbury State Today

Nestled in one of the nations's most magical and historical areas, the Eastern Shore of Maryland, Salisbury State College effectively combines the relaxed yet personable nature of a small college education with the rigorous academic demands of a major university.

The recreational pursuits of the Eastern Shore are legendary, from the boardwalk of Ocean City to the wilderness of Chincoteague Island to the tranquility of Blackwater Refuge near Cambridge, Md. Only 30 miles to the east is Ocean City's famous white beach and the 30 miles of Assateague Island's National and State Park.

Salisbury, Wicomico's county seat and the Shore's major city today, was laid out by a charter granted in 1732, the year George Washington was born. Progressive growth has been characteristic of Salisbury. It has grown over the years from a little crossroads town with a small lumbermill and a few stores into a flourishing business center and a chief distributing point.

The College offers undergraduate programs leading to the Bachelor of Arts and Bachelor of Science degrees, and graduate programs leading to the Master of Arts in English, History and Psychology, the Master of Education, and the Master of Business Administration.

Salisbury State's undergraduate program became more defined in 1984 with the alignment of the College's major programs into five distinct schools of learning: the School of Nursing and Health Sciences; the School of Business; the School of Liberal Arts; the School of Professional Studies; and the School of Science.
